

Quantum Series Rectifier

Application Flexibility Overview (Power Shelves)

1x8 Rectifier Shelf Module (W=19", H=3U, D=457mm, 24KW Power) where rectifiers are stacked vertically . Output connectors are wired and directly connected to +ve and -ve bus

1x4 Rectifier Shelf Module (W=19", H=58mm D=402mm, 12KW Power) where rectifiers are stacked horizontally. The Output connectors are attached to a back plate giving termination for +ve and -ve bus

Small Capacity Systems

2.5U system (Up to 9KW)

1U system (up to 6KW)

Medium Capacity Systems

6RU System with horizontal Rectifier Mounting with AUC 12KW

7RU System with vertical Rectifier Mounting with AUC 24KW

Outdoor IP55 Systems
